Academic Details

- **Bachelor of Computer Applications (BCA)**
PCTE Group of Institutes, Ludhiana
CGPA: 8.30 (untill 4th sem)
Duration: 2022-2025
- **Senior Secondary (10+2)**
St. Thomas Sr. Sec. School, Ludhiana
Percentage: 75%
Duration: 2021-2022
- **Metric (10th)**
Saint Bir Santosh Public School, Ludhiana
Percentage: 70%
Duration: 2020-2021

Soft Skills

Team Management | Collaborator | Leader | Adaptable

Technical Skills

- **Programming Languages:**
JavaScript
- **Frontend:** React.js, HTML, CSS
- **Database:** MySQL, Firebase
- **Frameworks:** React

Personal Details

Date of Birth: 28th June 2003

Languages Known: English, Hindi and Punjabi

Address: Ludhiana, Punjab

Profile Summary

- Web Developer proficient in React.js, HTML, CSS, JavaScript, and PHP, with expertise in designing user-friendly and responsive web applications.
- Hands-on experience in developing real-world projects, including video streaming platforms, expense trackers, and management systems, with a focus on functionality and performance optimization.
- Dedicated to solving practical problems and delivering innovative solutions by leveraging modern web technologies and frameworks.
- Improved the user experience of multiple applications by streamlining features, enhancing UI design, and ensuring seamless interactions.
- Collaborated effectively in team environments to deliver quality projects within deadlines, showcasing strong leadership and communication skills.

Academic Projects

StreamWave

Tools: React, Firebase, Tailwind, MaterialUI, RapidAPI

StreamWave: A video streaming platform built using React.js, Tailwind CSS, and Material-UI, featuring seamless video playback, user authentication, and personalized watch history powered by Firebase.

Responsibilities:

- Developed a video streaming platform, StreamWave, using React.js for building a dynamic and responsive user interface.
- Integrated Tailwind CSS and Material-UI (MUI) to create a visually appealing and highly customizable design system.
- Implemented Firebase for authentication, real-time database management, and user-specific features like watch history and video playback progress tracking.
- Optimized the platform for seamless video streaming, incorporating features like autoplay, video recommendations, and user preferences.
- **Live Link:** <https://stream-wave-tau.vercel.app/>

Cafe Management (CLIENT-SIDE PROJECT)

Tools: HTML, CSS, JS, PHP, MySQL

Cafe Management System: A live project developed for a client at Prince IT Solutions to streamline cafe operations, including order management, billing, and inventory tracking.

Responsibilities:

- Designed and developed a user-friendly interface to manage orders, billing, and inventory efficiently.
- Implemented backend functionality to handle real-time order processing and data management using PHP and MySQL.
- Ensured seamless integration of features like menu updates, table management, and staff coordination.
- Conducted thorough testing and debugging to deliver a reliable, client-ready solution.
- Provided client training for smooth day-to-day operations.

Work Experience

Prajapati Multibiz Company

Desktop Support Engineer

- Provided technical support and troubleshooting services to clients, ensuring timely resolution of hardware and software issues.
- Assembled and configured custom PCs, including high-performance gaming PCs, tailored to clients' specific needs.
- Performed repairs and maintenance on laptops and desktops, diagnosing and fixing hardware malfunctions to optimize performance.

Duration: December 2023-present

ThinkNext Technologies

45 days Training in React js

- Gained hands-on experience in **web development**, working with technologies like React.js and tailwind CSS to build dynamic applications.
- Contributed to the development of a **video streaming platform**, enhancing skills in UI/UX design.
- Collaborated with the development team, participated in code reviews, and implemented new features, gaining insights into professional software development practices.

SoundHeart

Tools: HTML, CSS, JS

SoundHeart: A static audio streaming platform built with HTML, CSS, and JavaScript, designed for smooth playback and an engaging user experience.

Responsibilities:

- Designed and developed a static audio streaming platform using HTML, CSS, and JavaScript.
- Built a responsive UI to ensure a smooth and engaging user experience.
- Implemented seamless audio playback functionality with a focus on simplicity and usability.
- Ensured cross-browser compatibility and optimized performance for all devices.
- **Live Link:** <https://vanshprocoder.github.io/SoundHeart/>

College Live Project

Tools: React.js, TailwindCSS

TimeTable Management System: A comprehensive solution designed to streamline and optimize timetable management for both students and faculty, ensuring efficient scheduling and resource allocation

Responsibilities:

- Collaborated with the design team to implement the user interface, ensuring seamless user experience.
- Integrated dynamic timetable views for students and faculty, allowing easy schedule management.
- Ensured mobile compatibility for users to access timetables on any device.
- Utilized React components for efficient rendering and smooth interactions across the web application.
- Focused on optimizing performance and responsiveness by implementing Tailwind CSS.
- Ensured the UI was intuitive and aligned with the design provided by the team.

SpendSmart: A Java-based expense tracker application with features like budget management, transaction history, and expense visualization.

Responsibilities:

- Developed a user-friendly interface using Java Swing for seamless navigation.
- Implemented backend logic for managing user authentication, expense tracking, and data storage.
- Designed database schemas in MySQL to efficiently store and retrieve user transaction data.
- Integrated functionalities for planned expenses and borrowing management.
- **Source Code:** https://github.com/Vanshprocoder/Expense_Tracker/

Academic Achievements

- Secured **1st Prize** in the **Business Plan Competition** at PCTE Fest-a-Week.
- Won **2nd Prize** in the **Inter-College Hackathon** at Arya College, Ludhiana.
- Achieved **3rd Prize** in the **Inter-College Hackathon** at GNDE College, Ludhiana.
